

SEG

A Round Table Discussion for Students and Young Professionals hosted by iCRAG and members of SEG and the AAPG Critical Minerals Committee

The Energy Transition: Why, Why You and How

This free webinar event is open to all students and young professionals curious about career opportunities presented by the energy transition. There will be four panelists who are members of SEG and the AAPG Critical Minerals Committee and have extensive experience ranging from oil/gas to renewables and everything in between. The purpose of this event is to provide early career geoscientists with a sense of community, a sounding board, and a realistic view of the challenges and changes occurring as the energy transition unfolds concurrent with a global pandemic. Our panel is here to encourage and support you as well as to provide examples of how our unusual personal paths have led us to find rewarding careers in the new energy economy.

Date: Thursday, December 17, 2020

Time: 3:00-4:30pm CST

To Register: Please send your full name, email, and affiliation to CMCstudentpanel@gmail.com or visit <https://www.eventbrite.com/e/the-energy-transition-why-why-you-and-how-tickets-131605077329>.
